

International/Akzo Salt

Watkins Glen, New York

Mechanical Integrity Tests

On June 8, 1989, Wells # 55, 47 and 56 were tested together, Wells # 48 and 50 were tested together, Wells # 57 and 52 were tested together (all by the gallery method), and Well # 49 was tested by itself.

On June 9, 1989, Wells # 44, 34 and 43 were tested together. The tests were conducted by Mike Schumacher, Akzo Salt, and Dermott Courtney, EPA, hung around and watched. All wells passed.
